I, Tiffany Butler, am now 19 years of age, born 1-7-1989 in January. I do hereby make the following statement to: _____ whom I know to be law enforcement officers. I make this statement voluntarily, of my own free will, no threats or promises have been made to me to induce me to make this statement.

I Tiffany Butler was looking in the newspaper last weekend for a job when I ran across a ad that said Kennel Help-needed. I called the number 706-247-2180, spoke with Jennifer and set up an interview the next day (Sunday) at 10:00am. After the interview she told me that the position was filled but that if things didn't work out I would get the full-time job, be paid \$6.00 an hour under

the table NO TAXES. Monday morning, 8-18-08 Jennifer called me a little after 8:00am wanting me to come and work ASAP, I arrived around 8:30, and clocked in at 9:00. Shortly after clocking in another employee proceeds to "Train" me. The first place I went into was the "puppy" room, This is a room built onto Maries house that they put puppies into before a customer comes, Its the only "clean" room... While in this room, I saw cock roaches, infesting the walls, After leaving the "puppy room" I went up the hill into the puppy barn.

This is a place full of mom dogs with there new born pups. This room was also infested with roaches, the "barn" smelled horriable, to the point where it was hard for me to breathe. the other employee showed me how to clean the pans under the cages. she told me to do that whole room of cages. there was at least 10-15 dogs in the room (not pups) in the same "barn" where the mom & pups are together there are 20-30 moms & pups, This room too was filled with roaches, they were falling off of the ceiling into my head.

After leaving that room I went into a trailer that, too was filled with dogs. (10-15) I proceeded to do my job, That afternoon In the room where the mom & pups are, I noticed a ~~dog~~-Shi-Tzu pup try to stand up, but she had no energy to do so, she fell over and laid there. I proceeded to call Jennifer, to tell her about the pup, she said she already knew about the pup, that it had been that way for a few days. I asked her if they were going to take ~~the~~ the pup to the vet, she said "no" I asked why, She said it "cost too much".

so I asked if I could take the pup home and try to force feed her to keep her alive. She said "YOU don't have too, its up to you, its going to die either way" So I took the puppy home and force fed it through out the night and next morning. The next morning I went back to work, However the night before I had a LONG discussion with my boyfriend (Adam Casper) who ~~also~~ also worked ~~at~~ at the kennels, after discussing all the problems we found we decided to ~~try to~~ do something about it. I had not seen the worst part.

Tuesday morning I went into work, the first thing I saw when I walked into the room beside the house was a tiny black and white Chihuahua pup, almost dead. I took the pup out of the cage it was in, put gloves on and briskly rubbed the pup to try to stimulate him. The pup had already lost control of its bodily functions. I rubbed the pup for over 45 minutes. Brandy and Jennifer walked into the room and asked if he was "down". I told them yes and that I had been trying to revive it for about 45 minutes. Brandy took the pup from me and rolled it up in a towel.

She put a heating pad into the cage and laid him on it. I then asked if they were going to take the puppy to a vet. Jennifer said "NO, they won't do anything for him and it cost too much anyway." Then I asked her if they could go get a shot to put him to sleep. She said "we don't want to do that either because if he does make it I don't want to be the one that killed him, and if he makes it we will sell him" Then Brandi and Jennifer left the room. At that time the other employee told me "We seen worse, it only gets worse,"

But they wont do anything b/c
this is there money "After leaving that
room, we walked up to the room with all
the mom's and pups. I told the other
employee I was going to get Adam,
my boyfriend and another employee
to show me the boxers on the hill.
She said ok. Adam then drove me up
the hill. Thats when I decided to
quit. On the hill there is 2 rows of
pit-bulls, no food, no water. In
the kennels there was mud, water
urine, and feces, that these dogs are
living in, the dogs have open sores covering
there bodies. There are horses that
you can count every rib in there body.
In one cage in the barn there are
10-20 dogs in what looks ~~to be~~ to be 6x6

cage. All of these dogs too are sick and have wounds covering most of there bodies. All in all this place is a puppy mill, they breed dogs until they die...

The other employees stated to me that when something is mentioned to the authorities they have to clean up extra good...

When I left the property today Jennifer and Brandy were gone, They both have been calling wanting the shi-tzu pup back.. I have ignored there calls.
